

Winter Camp - 2018

12.11.2018
to
29.12.2018

About the Centre

Dr. Mahalingam College of Engineering and technology (MCET) has established the MCET – JANATICS Centre of Excellence for Mechatronics and Automation in Collaboration with JANATICS who are market leaders in Pneumatics and Industrial Automation with the primary objective of producing competent personnel for automation in industry. Our state of the art Technology Centre is an instance of standards followed in quality and delivery, to its customers in terms of training. Training programmes are planned, structured and organised with flexibility for participants to learn the concepts in their understandable way through class room sessions, practicals or live projects. These learning methodologies have led to effectiveness in training and thereby helping participants acquire required set of technical competencies. Customised training programmes and associated workshops / projects provide participants the recent trends in the field of Pneumatics and Mechatronics systems

Starts from 12th November 2018 and Ends with 29th December 2018

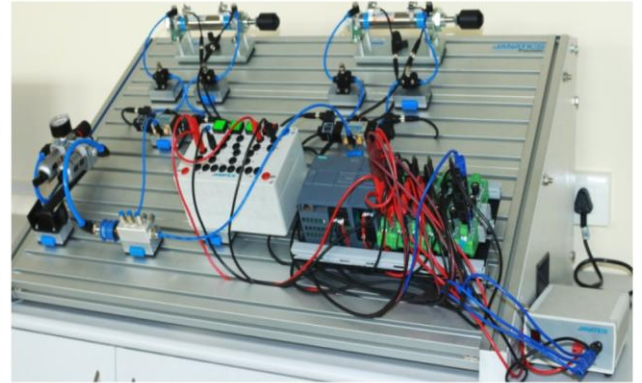

Who Can Attend: Polytechnic, UG and PG Engineering Students, Academicians and Industry Personnel

Workshop

Rs : 1000

- Industrial Pneumatics
- Electro Pneumatics with PLC Systems

Duration: 2 days

STTP

Rs : 1500

- Comprehensive training program on Pneumatics System
- Comprehensive training program on PLC with Pneumatics System

Duration: 3 days

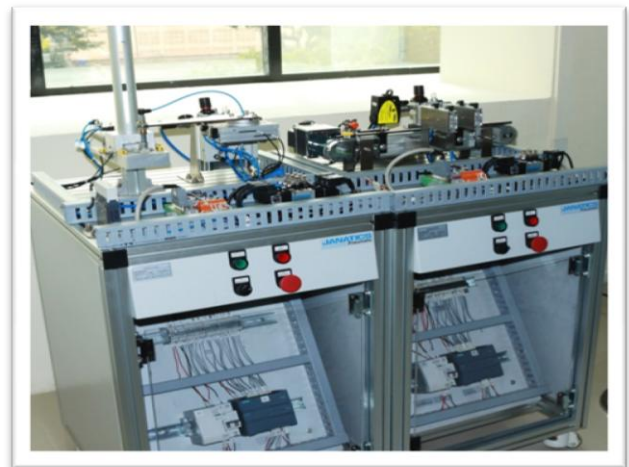

IPT

Rs : 3000

- Mechatronics for Industrial Automation
- Pneumatic Automation using Siemens PLC

Duration: 6 days
