

Youth Red Cross/Red Ribbon Club

Report on Blood Donation Camp

A blood donation camp was organized by our YRC and RRC club in collaboration with Government hospital, Pollachi, PHC Kanjampatti and IMA, Pollachi on 26.09.2022 at CC hall through which 100 units of blood was donated by our students. While addressing to people at the camp, our volunteers brought awareness about shortage of blood and importance of donating blood. It may help the persons requiring blood at right time. Blood donation can save lives of innumerable persons. Donation of blood is very crucial for saving many patients and those who have met with accident. It is as such a great service or contribution to the society and people living in it.
