Class * BE CSE 4A - 2018

Subject: 16CST45

Submit Cancel

3. Adding Question:

Give Assignment name->**add the questions in the description box**-> set the due date (change the time if needed)

The screenshot shows the 'Edit Assignment' interface. In the 'General' section, the 'Assignment name' is 'CA-Unit5_TQA03'. The 'Description' field contains the text: 'Compare minimum two processors and elaborate components with its features (Processors can be of any Intel, ARM, AMD, Celeron, etc.)' and 'Instructions for the Students:'. In the 'Availability' section, the 'Due date' is set to '2020-03-25 23:59:59' and the 'Enable' checkbox is checked.

4. **Enable File Submission**-> **Maximum no. of file submission can be changed to 20.**

The screenshot shows the 'Submission types' section. The 'File submissions' checkbox is checked, and the 'Maximum number of uploaded files' dropdown is set to '1'. Red arrows point to these two elements. Below this is the 'Feedback types' section, where 'Feedback comments' and 'Feedback files' are both checked. The 'Submission settings' section has 'Require that students accept the submission statement' set to 'No'. The 'Group submission settings' section has 'Students submit in groups', 'Require all group members submit', and 'Grouping for student groups' all set to 'No'. The 'Grade' section has 'Type' set to 'Point' and 'Maximum points' set to '100'. 'Submit' and 'Cancel' buttons are at the bottom.

5. Grading for individual students can be done using Grade option.
