

Workshop on “Industrial Pneumatics” 17 & 18 September 2018

Application Form

Participant's Name : _____

Designation : _____

Organization : _____

Address for Correspondence:

Phone : _____

E-mail : _____

Fee Details:

Course Fee : Rs 400 /-

Accommodation Fee : Rs 250/- (per day)
(Includes Boarding and Lodging)

Accommodation Required: Yes/No

Last date for receiving application: **02.09.2018**

The Course fee can be paid by DD in favor of
“Dr.Mahalingam College of Engineering and Technology,
Pollachi” Payable at Pollachi

D.D Amount (Rs): _____ D.D No.: _____

Date: _____ Bank: _____

Signature with Name and Date

Resource Persons

SME^S (Subject Matter Experts) from M/s Janatics India Private Limited and the faculty members from Dr.Mahalingam College of Engineering and Technology will conduct the sessions.

How to Apply

The applicants should specify the required training slot on the application form send it us by email/post on or before 02.09.2018. All communications will be made through e-mail only.

For Further details:

Mr.C. Selva Senthil Prabhu,
Coordinator,
Department of Mechanical Engineering,
Dr. Mahalingam College of Engineering and Technology,
Pollachi – 642003, Tamil Nadu.
Mobile: 9842869663, 7373538387.

Two Days workshop on ‘Industrial Pneumatics’

17 & 18 September 2018

Organized by

MCET Janatics Center of Excellence for
Mechatronics and Automation,
Department of Mechanical Engineering
Dr.Mahalingam College of Engineering Technology,
Pollachi – 642 003.
&
M/s. Janatics India Private Limited,
Coimbatore – 641 021.

About The Institution

Dr. Mahalingam College of Engineering and Technology (MCET) was established in the year 1998 with a mission to impart high quality competency based education in Engineering and Technology to the younger generation to equip them with the required skills and abilities to face the challenging needs of the industry around the globe. MCET is an Autonomous; Self-financing, Coeducational Engineering College and it is approved by the All India Council for Technical Education (AICTE), New Delhi and affiliated to Anna University, Chennai. The MCET currently offers 10 UG, 6 PG and 5 Doctoral programs in Engineering. Among 10 UG programmes CSE, EEE, ECE, Mech, Auto, Civil, EIE has been accredited by the National Board of Accreditation (NBA) and the institute is accredited by NAAC with 'A' grade.

About the Center

Dr. Mahalingam College of Engineering and technology (MCET) has established the MCET – JANATICS Center of Excellence for Mechatronics and Automation in Collaboration with JANATICS who are market leaders in Pneumatics and Industrial Automation with the primary objective of producing competent personnel for automation in industry. Our state of the art Technology Center is an instance of standards followed in quality and delivery, to its customers in terms of training. Training programmes are planned, structured and organised with flexibility for participants to learn the concepts in their understandable way through class room sessions, practicals or live projects.

These learning methodologies have led to effectiveness in training and thereby helping participants acquire required set of technical competencies. Customised training programmes and associated workshops / projects provide participants the recent trends in the field of Pneumatics and Mechatronic systems.

Objective of the Program

The fourth industrial revolution is in full swing, with innovative technological developments opening up exciting new opportunities virtually every day. And if you look under the hood, you'll see that the engine driving it all is automation technology, which is making industrial production a lot more efficient. Since the key to utilizing this technology will be highly trained technically skilled manpower, training and education in industrial automation technologies has become a critical issue in many fields of Engineering. The training program would serve to expose the participants to different aspects of automation and to improve their knowledge in Pneumatics and Electro pneumatics.

Programme Contents

- Need for pneumatics
- Advantages and limitations of pneumatic systems
- Elements of pneumatic systems and graphical symbols
- Hands on practice of basic pneumatic systems
- Pneumatic vs. Electrical control
- Elements Of Electro Pneumatic Systems And Graphical Symbols
- Hands on practice of Electro pneumatic systems
- Sequential circuits design
- Maintenance and troubleshooting of pneumatic system.

Participants

Students and Faculty members from Engineering and Polytechnic colleges in the field of Mechanical Sciences, and Industry professionals can apply for the programme. The number of participants is restricted and the selection is on first come first serve basis.
