Mr. VIVEK BANSAL

President and co-founder, VVDN Technologies.

Vivek Bansal is the President and co-founder at VVDN Technologies. Vivek co-founded VVDN Technologies in 2007 which is a technology innovation company providing broad spectrum of embedded design services and manufacturing services in 5Gand Datacenter, Networking and Wi-Fi, Vision, IoT and Cloud.
At VVDN, Vivek leads the complete engineering business and is responsible for the strategy, execution & implementation, as well as the go-to-market strategy execution. Vivek's vast experience of more than 2 decades and open-mindedness has helped VVDN yield innovative solutions such as AI/ML based solutions in Vision & camera and Audio based solutions in IoT.

Vivek's deep technical expertise and background gives him a strong foundation to master complex systems under development and provide good guidance to the team.

Vivek's experience lies in defining and developing innovative industry-leading products and in building world-class teams and businesses. He plans to take VVDN to Excellence of Engineering by taking care of strategic planning, product design, quality assurance and problem resolution.

Vivek leads his team to execute product design to meet company objectives and develop systems and controls to ensure compliance with quality standards.

Apart from a degree in Engineering, Vivek holds a Management Development Programme degree from IIM – Lucknow.
