UHV Sessions

Society produces mental turmoil, as the desire to accumulate physical resources, has become the mere goal of young people. Parents and peers pressurize the kids to work in a competitive environment, which causes a lot of stress. Furthermore, the pursuit for materialistic items slowly erodes ethics and values of life. UHV modules are imbibed into SIP to instil moral ideals and tranquilly into the brains of the young, earning a prominent role in providing guidance to empower their

intrinsic values.

Visit to Local Area

To relate to the social environment of the educational institution as well as the area in which it is situated through interaction with the people and their place a visit to the local area, Aaliyar Arivu Thirukovil, Aaliyar, Pollachi, was arranged.

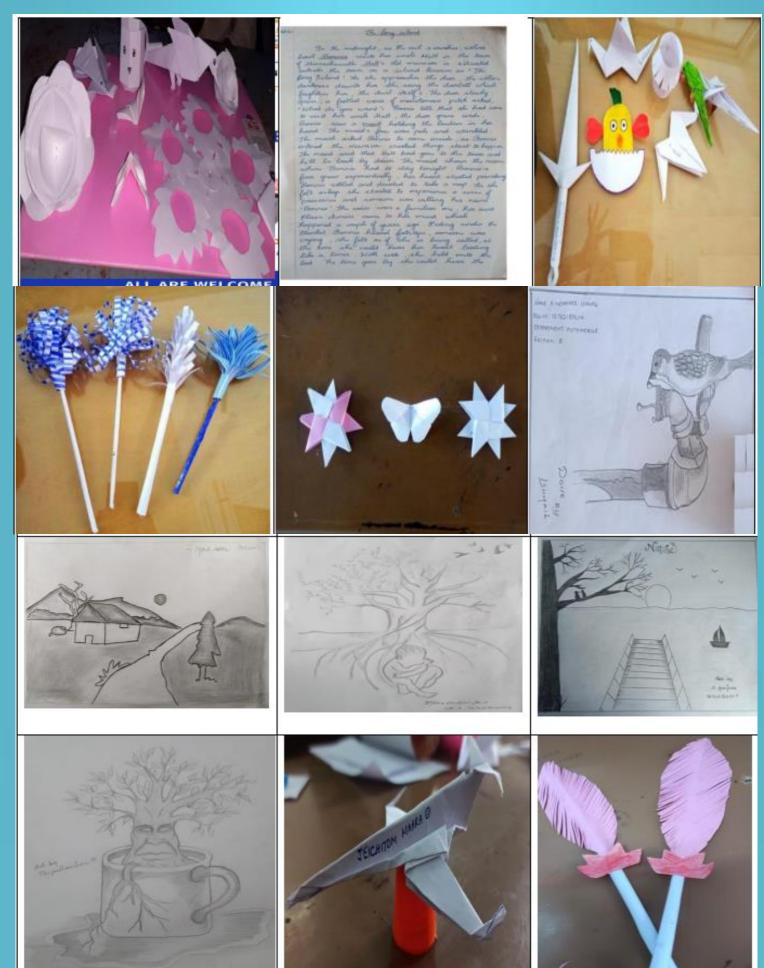

Creativity Practices help the students develop the clarity of humanistic culture and its creative, joyful expression. To instil creativity and novelty among the students Group Activities were planned and conducted. STEM, Quiz, Puzzle, Photography and Poster Making events under the title 'Unleashing Proficiency' were also organized. It not only channelizes the aesthetic aspects of the students but also displays the creative elements of engineering learning. It helps them appreciate the beauty of non-academic aspects and by the end of the session they showcase the skills they learned.

Sports – Induction

Sports is the microcosm of life. What one does in sports, is eventually he/she going to do in life. There can be frustrations, happy times, bad times and highs and lows. Sports help one to prepare for those life experiences.
