Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.		Engineering programmes at the institution broadly has two types of courses viz. theory courses and practical courses. All courses of all programmes were transitioned into blended learning format. An established platform was used for floating video lessons, assessments and conducting live sessions. Video lessons were prepared by faculty members using available tools. Assessments were both formative and summative. Existing practices of the evaluation system were suitably modified to cater to the needs of online mode of assessments. Wherever feasible for the practical courses, online tools were used to conduct the experiments / exercises. Scientific approaches were adopted with respect to engagement of students in the online learning environment ensuring not overloading them, at same time monitoring their involvement in the learning process. Faculty members were given orientation and training as necessary to use the platform and other tools for preparing and administering online courses. Department level content review mechanisms were put in place to ensure the quality of video lessons and assessments. Periodic audits were conducted to ensure the delivery of content, conduct of assessment, engagement of students and continuous improvements were made. Audits also captured the best practices of teaching learning in the online mode and these in turn were shared with other faculty members for implementation. The institution had been using campus agreements with established global companies due to which the IT needs required for supporting online learning were already available with the institute helping in seamless deployment of online learning. Periodic online meetings were convened with all stakeholders of online education to get feedback and implement improvement measures. Due consideration was given to all students with respect their engagement in online learning to overcome difficulties posed by network and hardware issues. The online learning design considered the difficulties such as bandwidth, network availability, data usage and device compatibility. Using online learning mode entire course contents required for the syllabus coverage in majority of the courses both theory and practical were completed. However a small portion requiring physical presence of students in designate laboratories could not be accomplished and hence equivalent exercises were proposed by faculty members and conducted using virtual labs. Recommendations of UGC, AICTE and Anna University with respect to online learning were carefully customized and implemented while conducting courses online. In-short the challenges posed by the COVID 19 pandemic enabled the institution to explore various avenues of learning in the online mode and it has so far proved to be very successful.
