## BOOK REVIEW

It is a beautiful book which transformed the way of perceiving things. In the entire book, **Joseph Murphy** focuses on the massive power of our subconscious mind which is not felt and understood by many. The greatest thing which I loved the most about it is the concept of faith in your subconscious mind. Whatever you cherish most in life, you just imagine, feel it and believe it; wonders happen undoubtedly, this is all because the Divine Power of our subconscious mind creates attractions and develops unimaginable sources from the unknown to make that happen. It revolves around our belief and the way we think things to be, it is actually made true by our subconscious mind. If we believe that we are the happiest human being on this earth, we do not have any problems in our lives, it will be made true by your subconscious mind and you will experience those things. Even the incurable diseases can be cured because of strong belief. It is nothing but the subconscious mind the power to heal your mind and body. Just loved the way **Joseph Murphy** has given evidences and practical examples of the power of our subconscious mind. Recommending this book to all those who are experiencing a rough patch in their lives.
