Alumini

They say the most the most memorable years of one's life is the college period. Studying in the computer science department, I had an enjoyable 4 years at MCET. From exposure to various clubs and events to different competitive exams, there were a lot of arenas I was able to focus on apart from academics. The support and motivation that the professors helped me get through a lot of obstacles. Most of the departments were very warm and welcoming to other department students, which helped in having a good inter-department rapport. Apart from the core branches, the English department and the career guidance cell were very open to guidance as well. The best part of the whole period was the encouragement that professors provided when it came to participation in extra curricular activities. They were ready to help us round the clock and didn't bat an eye to provide us with any information that we asked for. Even after almost a decade of passing out, there are a lot of moments I remember fondly and I am very grateful for that!

FACULTY INDUCTION PROGRAMME

An orientation and Induction sessions on Teaching Learning based on Outcome based education and e-learning conducted for the new faculty members on 15 & 16.06.2022.
