Voice of Alumni

Ms.Lalitha Parameswaran

EEE - 2010- 2014

Senior Associate, BNP Paribas, Mumbai.

Having relocated from a state in the North wayback in 2010, I joined MCET with lot of apprehensions in my mind. In less than a week, I realised I had taken the right decision and that I was a place where I rightly belonged. The institution holds its **values high and is strongly backed by the vision of its founding members.**

MCET always had something to offer to fulfill the inspiration of each one of its students. Apart from regular academics, there was multiple avenues we could explore ranging from **centres of excellence** that make you industry ready to the various clubs to suit your passion or interest.

Our professors were approachable and instrumental in identifying our strengths, thereby helping to gain exposure. There were also various department level initiatives that aided in pursuing academic interest better. MCET has been very welcoming in implementing ideas/proposals submitted by students. The concept of having **SGS (Students Guild of Service)** played a major role in the same. I personally had a very fulfilling four years in MCET where I could achieve overall growth and satisfaction by pursuing my academics and fueling my dreams and I am ever grateful to the institution and staff for shaping me into a person.

I ECE A students had their industrial visit to **Sakthi Soyas**.

Research seminar on “**Content Aware Routing in Software Defined Networks**” presented by **C.Aswini** ,Research Scholar of **Dr.M.L.Valarmathi**, Professor-CSE on 27.06.2022.

I'm **Swetha** recent alumni of MCT & future analyst at **Capgemini**. I would like to share some inputs of **PLM training offered by MCET** which was profound & very useful & helped me to crack the placement at ease. It is a golden opportunity for our batch to get connected with Capgemini.

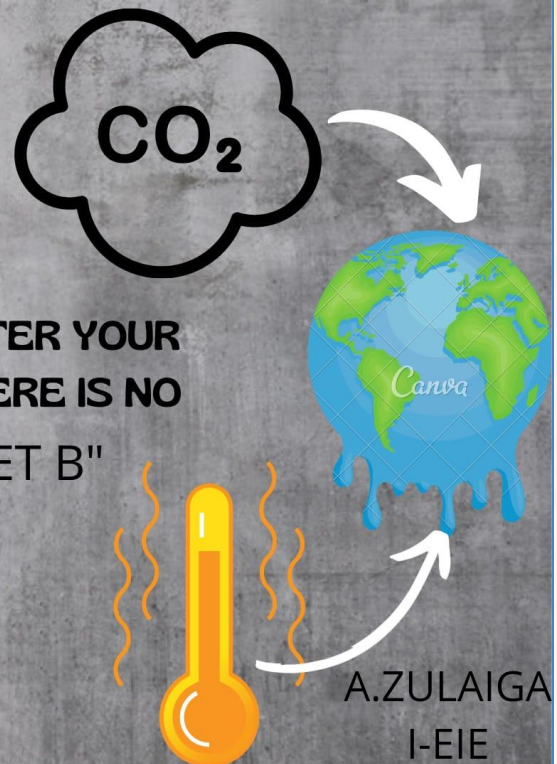

My training session was completely packed with PLM software gaming. It helped me to face the interview with confidence. I would like to place my regard to my mentors & faculties for providing back to back mock interview & assessments. The hands on experience in PLM software build us to have slight industrial exposure. I assure my juniors will receive profound training from MCET and Capgemini.
