VOICE OF ALUMNI**Mr. Anandha Raj L (Batch : 2014 - 2018)**

PhD Scholar

IIT Madras, Chennai

I am currently pursuing research as a **PhD Student** in the Computational Geomechanics Laboratory, Indian Institute of Technology Madras. I did my Bachelors degree (2014-2018) in Civil Engineering, at Dr. Mahalingam College of Engineering & Technology, Pollachi and consequently did masters from CEG , Chennai.

My under graduation experience at MCET was quite amazing and fruitful with lot of joy in all the circumstances including academics, co and extra curricular activities. **The place which I loved the most in the campus is library** where I spent quality hours. In my personal life, MCET gave the opportunity to realize required life skills.

All the professors are very dedicated and sincere towards the students' development and work hard for their future. The days worked in beavers association made me a zeal person and taught me managerial skills.

I thank all my professors, peers, and lab, library, hostel staffs for giving the knowledge and wonderful stay in the campus. I highly encourage the high school passed outs to join MCET for their future endeavours.
